

AUSTRALIAN RING SIZE CHART

OPTION A
CUT-OUT RING SIZER

Before measuring please use a ruler to check the above line has printed to exactly 100mm. Note. For the most accurate sizing, measure warm hands. Early evening is considered the best time to measure.

Place a single length of clear tape over the ring sizer shape to add strength, then cut carefully around the edge. With a blade, cut the vertical slit.

With letters facing out, place around finger at the widest point (usually the knuckle) and pull snugly after inserting the end of the sizer into the slit. The letter that lines up with the slit is your ring size. Ensure the sizer can still slip over the knuckle. If the size is between two letters, choose the larger size.

OPTION B
EXISTING RING SIZER

Select a ring that fits comfortably on the finger for your new ring. Move the ring over the circles to the right until you can clearly see the circle inside. If the size is between two letters, choose the larger size.

IMPORTANT!
PRINTING THIS PAGE

For accuracy this page must be printed at 100%. Make sure you uncheck the *Fit to Page* option in your print dialog box and set page scaling to 100% or actual size. Use a ruler to check the 100mm line above is exact. Do not attempt to measure using this page on your screen.

Please note, sizes identified using this page will still be considered approximate and may require some adjustment by Claudia Jewellers.
